---

SENIOR FULL STACK ENGINEER (REACT.JS / NODE.JS)

I've been coding for nearly 9 years. I'm a senior software developer who loves building full-stack applications & learning new technologies. I've also mentored several teams in the past and currently working as a lead frontend developer. Passionate and hardworking with a penchant for meeting deadlines. Interested in roles indulging best practices and offering diverse customer projects.

Experienced with various technologies working in Agile Methodologies using SDLC including but not limited to:

JavaScript ES6+ | TypeScript | React.js | Redux | Context API | Next.js | Node.js | Tailwind CSS | Architecture | Styled Components | Material UI | Ant Design | Elastic UI | Express.js | Heroku | Vercel | AWS | Amplify | HTML5 | CSS5 | MERN | MsSQL | NoSQL (CosmosDB /MongoDB) | Firebase DB | MySQL | BitBucket | GitHub | GitLab | Azure DevOps | Google Cloud Platform | Azure DevOps | Microservices | Swagger | .NET Core | VS Code | Teams | Slack | Notion | JIRA

PROFESSIONAL EXPERIENCE

Empower Associates | 10/2022 – Present
Senior Frontend Developer (React.js) | Remote | United States
Working on Empower CRM Dashboard, which is built for associates to manage, recruit or source employees for different organizations with ease from different platforms like LinkedIn and enrich them from ZoomInfo etc.

Technologies: BitBucket, AWS Amplify, CI/CD, React.js, Redux, TypeScript, JavaScript, Tailwind CSS, styled-components, Sass, Node.js, Redux and CircleCI

- Leading Front End team and devising systems architecture using technology stack that enables robust, highly available and scalable software.
- Responsible for DevOps including CI/CD and upgrading UI/UX using new designs alongside fixing production bugs.

PackageX | 10/2021 – 10/2022
Senior Full Stack Developer (React.js / Node.js) | On-Site | Pakistan
Led a team of 4 developers on PackageX Receive. Which is powered by an award-winning package receiving app that automates label data ingestion, package notifications, storage, retrieval, routing, forwarding, pickup, locker integration, and many other logistics workflows for mailrooms, pickup/drop-off locations, and other delivery sites.

Technologies: Next.js, Javascript ES6, React.js, TypeScript, Redux, HTML5, Styled Components, Node.js, Express.js, REST/RESTful APIs, Agile Scrum Methodologies, Git, Teams, Slack, Notion, AWS Lambda, PostgreSQL and AWS Cognito.

- Built PackageX Receive Dashboard, Receive Connect & Receive CLA (Internal Dashboard) using Chart.js, Redux, Redux-Saga, Redux Toolkit, React Hooks and Context API. It is a tenant based single/multi-building/site-based software to resolve last yard package delivery and package loss issues.
- Built custom components on top of Ant Design and Material UI consisting of Tables, Cards, Dropdown, Button, Checkbox, Input, Icons. Authentication was implemented using AWS Amplify.

N3O.ltd | 07/2018 – 10/2021
Senior Full Stack Engineer (React.js / .NET Core) | Remote | United Kingdom
Worked on a greenfield product called Engage. It is a CRM built exclusively for NGOs and charities, covering a range of needs growing organizations have. With feature-rich design, Engage helps you to effortlessly manage and enhance every aspect of your charity.

Technologies: React.js, Redux, TypeScript, JavaScript, styled-components, Sass, JSON, HTML5, .NET Core, Azure NoSQL Cosmos DB, Version Control, Continuous Integration and Continuous Delivery (CI/CD)

- Developed high performance subscription based CRM application using Ant Design, ReactJS, Redux-saga, React Hooks, React-Router, JavaScript, TypeScript, HTML5, CSS3, Styled Components, Intl.Js, .NET Core.
- Maintained high-level expertise in React state management strategies, including Redux, Redux Persist and redux-saga and developed custom API layer for CRUD, JWT management and custom middleware interceptors.
- CQRS as principal method for read & write functions using event sourcing mechanism for auditing and managing history by utilizing Azure Message Bus in a Microservices Architecture.

Agifly | 05/2021 – 08/2021
Lead Full Stack Developer (React.js / Node.js) | Part-Time | Remote | Belgium
Worked on A multilingual Belgium-based government web application for home renovation and energy cost-saving calculator with centralized controlled pricing.

Technologies: React.js, Redux, Node.js, JavaScript, Styled Components, Scss, Sequelize, MySql

- Drove a full stack team and built couple of Energy Saving applications using React.Js, Tailwind Css
- Built and consumed REST Apis with Express.Js, Node.Js, Sequelize and MySQL

ITROOS Pvt. Ltd. | 04/2018 – 06/2018
Sr. Software Engineer (.NET) | On-Site| Pakistan
Built a real-time currency conversion application using a third-party integration tool using .NET, C#, Version Control, Strategic Thinking, Entity Framework, Angular, MVC (repository pattern) while working as a Senior Software Engineer.

Wireless Marketer | 02/2016 – 01/2018
Software Engineer (.NET/IONIC) | On-Site| Saudi Arabia
Successfully finished an internal CRM-based client management, communication tracking and task management system including pricing and VAT calculation using .NET, C#, Version Control, Strategic Thinking, Entity Framework and MVC. Also conceptualized & built image processing alongside hybrid mobile applications in IONIC Framework.

Xyper Technologies | 12/2014 – 02/2016
ASP.NET Developer (.NET) | On-Site| Pakistan
Built several applications using Windows Forms, Asp.Net Web Forms, Asp.Net MVC & Web Services and also led a small .NET interns team and maintained Lathrop websites & applications.
